

INSPIRED
BY YOUR
VISION

Welcome to our 2026 collection.

Candlelight has evolved from candles into a global sourcing company for furniture and home decor, with personally curated collections. | We have built long-standing partnerships across Indonesia, Vietnam, India, and beyond, following international trends and working with trusted manufacturers and artisans. With deep knowledge of the market, we remain closely involved at every stage - from sourcing and production to quality control and final shipment - ensuring consistency in both design and execution. Our collections are developed with careful attention to natural sourcing and responsibly selected materials, with an emphasis on sustainability and social responsibility. | True to our “Inspired by your vision” philosophy, we present our current collection, available for immediate delivery. For bespoke projects, we invite you to contact us directly.

Marilita Fronimopoulou
Founder

Projects

Candlelight collaborates with architects and designers on residential and hospitality projects in Greece and internationally. Working from initial concepts and renderings through to final production, we support the development of each piece in line with the original design vision, ensuring a consistent translation from idea to finished result. With over 30 years of sourcing expertise and long-standing relationships with our manufacturing partners, we offer both curated selections and bespoke solutions, developed to meet the aesthetic and functional requirements of each project.

Our natural materials collection brings together rattan, bamboo, seagrass, banana fibre, and other plant-based weavings, all sourced from Indonesia and shaped using traditional techniques. Much of the weaving is carried out within local communities, where materials are worked by hand in small workshops and homes before being returned to the factory for assembly.

This process supports local craftsmanship while preserving techniques that have been passed down over time. These materials are valued for their lightness, flexibility, and natural texture, offering subtle variations that bring depth to a space. Best suited for indoor or covered environments, they age gracefully over time while preserving their integrity.

Teak is one of the most durable and stable woods, valued for its strength, longevity, and natural resistance. Our collection includes both responsibly sourced teak and reclaimed teak, carefully selected for its character and performance. Reclaimed wood originates from older structures in Indonesia, where each piece is recovered, sorted, and reworked by hand, resulting in a material with depth and a natural patina that cannot be replicated. We work with FSC-certified sources and experienced manufacturers to ensure consistency in quality and construction. With proper care, teak evolves over time, developing a softer tone while maintaining its integrity.

Our outdoor collections are constructed using high-performance woven materials designed to withstand daily use in exterior environments. The fibres, including wicker and cord, are made from recycled materials and selected for their durability, flexibility, and resistance to outdoor conditions.

While engineered for performance, these materials are developed to closely resemble natural textures, maintaining the warmth and visual softness of traditional weavings. All pieces are built on powder-coated aluminum frames, ensuring strength, stability, and resistance to corrosion. The result is furniture that combines long-term durability with a refined, natural appearance.

Aluminum forms the structural base of our outdoor collections, selected for its strength, stability, and resistance to outdoor conditions.

All frames are carefully finished with high-quality powder coating, ensuring durability and protection over time while maintaining a refined appearance.

This allows for clean lines and well-balanced proportions without compromising performance.

Combined with woven elements or used on its own, aluminum provides a reliable foundation for furniture designed for long-term outdoor use with minimal maintenance.

TEXTILE COLORS

A collection of furniture crafted from concrete, enriched with natural fibers and granite dust from the Mekong Delta, creating pieces that are both durable and refined, designed for outdoor living.

The composition allows for a lighter structure while maintaining strength and stability, making it suitable for a wide range of exterior applications.

With softly textured surfaces and a natural finish, each piece brings a quiet, architectural presence to a space, balancing solidity with a refined aesthetic.

Designed for durability and long-term use, these pieces require minimal maintenance in outdoor environments.

OUTDOOR FABRICS SEE PAGE 129

Our decorative collection brings together vases, lighting, baskets, and objects selected to complete a space with balance and character. Inspired by a Mediterranean coastal aesthetic, these pieces introduce texture, softness, and a sense of ease, adding a refined yet relaxed atmosphere to both indoor and outdoor settings. Each item is carefully chosen as part of our personal selection, reflecting a considered approach to detail and composition. These final elements bring depth and sophistication, giving a space its finished and distinctive identity.
